

The City of Florence wants to help you stay informed about the upcoming state construction project on Pleasant Valley Road.

Pleasant Valley Road/Ky.237 is a state highway and therefore the Kentucky Transportation is responsible for the construction. The project encompasses the portion of Pleasant Valley Road from US 42 to Rose Petal Drive. The project also relocates a short portion of Gunpowder Road in order to align the intersection at US 42.

The project cost is \$9,300,000 which is funded by the American Recovery and Reinvestment Act of 2009, part of the stimulus package. The general contractor is Eaton Asphalt Paving Company, Inc. The anticipated start date of the project is May 2010 with an estimated completion date of August 2011. The only street anticipated to be closed during the project is Old Toll Road. This will be a temporary construction closure as work takes place on a major retaining wall.

The contact for the project is Scott Pennington, P.E., Engineer Supervisor for the Kentucky Transportation Cabinet and he can be reached at 859-371-3045 or at Scott.Pennington@ky.gov.

The City appreciates your patience during the construction progress and please use extra caution when driving in the construction area.

We will continue to provide updates as they are made available by the Kentucky Transportation Cabinet and the General Contractor.
